ARA | ARGO ROBOTICS & AUTOMATION

CORPORATE OVERVIEW
OCTOBER 2026

INTELLIGENT MACHINES. DISCIPLINED COMMERCIALIZATION.

AUTONOMY. ENGINEERED.

AN EMERGING ROBOTICS ENTERPRISE

OUR VISION

To build a scalable robotics and automation business spanning intelligent machines for industry, government and residential environments, beginning with a disciplined focus on outdoor and professional property maintenance.

THREE PLANNED DIVISIONS

01

INDUSTRIAL & COMMERCIAL

Future focus on mobile robotics, material handling and automation for commercial operations.

02

MILITARY & GOVERNMENT

Prospective interest in public-sector logistics, remote inspection and critical environments. No contracts or certifications are implied.

03

RESIDENTIAL

Initial interest in autonomous mowing and multipurpose outdoor platforms for homes, estates and professional property maintenance.

PRELIMINARY GROWTH STRATEGY

01 / EVALUATE	Assess equipment through hands-on evaluation under real property operating conditions, including performance, serviceability and support.
02 / DEVELOP	Explore distribution and strategic partnerships after product, economics, account protection and support requirements are understood.
03 / EXPAND	Consider selective acquisitions and proprietary technology as longer-term pathways, subject to diligence and future decisions.

Early-stage overview for preliminary discussions. All divisions and growth pathways are prospective. Website equipment imagery is illustrative, not current ARA products. No existing contracts, appointments, product ownership or manufacturing capabilities are represented. This is not an investment offering.
